

Day 4: O Cebreiro to Portomarin - It may be easier to say where it doesn't hurt!! We have cycled 68km and gained 1297m which was quite apt given our bible reading this morning. The reading was about St James witnessing the Transfiguration an amazing experience for him. We have been blessed with witnessing the fabulous views that greet us at the top of each mountain we have climbed. It has been really hard but we know that many others will be able to read about God's amazing love & interaction with humanity through the work of Bible Society.
